I. INTRODUCTION

This data summary provides selected tabular summaries of data from the U.S. decennial census. The dataset used in this analysis is the Census 2000 Summary File #1 (SF-1) produced by the U.S. Census Bureau.

Summary File #1 was released on a state-by-state flow basis in summer 2001, with California's version of SF-1 released August 8, 2001.

Summary File #1 includes a total of 286 tables. There are 171 population tables (identified with a "P") and 56 housing tables (identified with an "H") that provide data down to the census block level. There are an additional 59 population tables (identified with a "PCT") that provide data down to the census tract level.

Census 2000 SF-1 provides a detailed look at 100-percent count data including: population by detailed age and sex, population for Asian and Hispanic/Latino sub-groups, number of households, relationship to the head of household (or the "householder"), "group quarters" population (those living in group settings), housing units, households by tenure (owner-occupied or renter-occupied), average household size and average family size.

The geographic focus for this report is the nine-county San Francisco Bay Area, including the counties of Alameda, Contra Costa, Marin, Napa, San Francisco, San Mateo, Santa Clara, Solano and Sonoma. Data is reported at the region and county level.

This data summary includes one table in the body of the report and several sets of appendix tables.

Appendices A through J contain a set of 13 demographic and housing "profile" tables for the Bay Area and each of the nine Bay Area counties. These 13 tables contain data from 32 of the 286 tables in SF-1. These data were chosen to complement the information contained in MTC Data Summary #2 (based on Demographic Profile #1 data.)

Appendix K and L contain a set of 9 demographic and housing tables for MTC's 34 Superdistrict system, at the Census 2000 5-percent Public Use Microdata Areas (PUMAs), and at the Census 2000 1-percent Public Use Microdata Areas (PUMAs). There are 54 of the 5-percent PUMAs and 12 of the 1-percent PUMAs in the Bay Area. The 5-percent PUMAs have a minimum population of 100,000 persons. The 1-percent PUMAs have a minimum population of 400,000 persons. These PUMA-level tabulations of SF-1 data are intended to complement the detailed analysis of PUMS datasets that are expected in 2002/03. Maps showing the superdistricts and PUMAs are included as Figures 1 through 3.

This report, MTC Data Summary #3, is the third in a series of Census 2000 reports produced by MTC staff for general use.

Data Summary #1, completed October 2001, is based on the Public Law 94-171 (PL 94-171) data product released by the Census Bureau in March 2001. Data Summary #2, completed November 2001, is based on the Demographic Profile #1 data product released by the Census Bureau in May 2001. These three MTC Data Summaries are all based on the 100 percent, or "short form" data from Census 2000.

II. DISCUSSION OF RESULTS

A. Population by Race and Ethnicity

(Tables analyzed in this section include Table 1, and Appendix Tables A.1, A.4 and A.5).

Race and ethnicity data was previously available in the Public Law 94-171 data product, and the Demographic Profile #1 data product. These two data products are summarized in MTC Data Summary #1 and #2, respectively.

What is new with the Summary File #1 is detailed data on Hispanic/Latino and Asian sub-groups. A regional comparison of detailed Hispanic/Latino and Asian population by sub-group, 1980 to 2000, is summarized in Table 1.

A re-cap of the Bay Area population by race and ethnicity is included in Appendix Table A.1.

The Bay Area Hispanic/Latino population increased by 46.3 percent between 1990 and 2000, from 899 thousand to 1,315 thousand persons. Persons of Mexican ethnicity represent the largest share of Hispanic/Latinos, increasing from 67.5 percent of Latinos in 1990 to 70.2 percent of Latinos in 2000. Interestingly, the Central American share of Latinos decreased from 11.6 percent in 1990 to 7.6 percent in 2000. And similarly, the South American share of Latinos decreased from 3.7 percent in 1990 to 2.5 percent by 2000. The largest apparent increase in Latinos is for "all other Hispanic or Latino, not elsewhere classified." Detailed Hispanic/Latino population data for the Bay Area is included as Table A.5, derived from the SF-1 table PCT-11. (The PCT-11 data is available down to the census tract level.)

A comparison of the detailed Asian sub-groups is also provided in Table 1. The fastest growing Asian groups in the Bay Area are Asian Indians (+187 percent, 1990 to 200), Vietnamese (+73 percent, 1990 to 2000), Thai (+54 percent, 1990 to 2000), and Hmong (+1175 percent, 1990 to 2000, based on Hmong population increasing from 68 persons in 1990 to 867 persons by 2000.)

The apparent decline in the Bay Area Japanese population between 1990 and 2000 is shown in Table 1: from 79.2 thousand in 1990 (9 percent of the Asian population) to 74.5 thousand in 2000 (6 percent of the Asian population). In the 1990 Census, persons were able to report one race only. In the 2000 Census, persons were able to report one-or-more races. So, the data from 1990 and 2000 are not strictly comparable because of these significant differences in data reporting and data collection.

Detailed data on the Asian population, reporting one Asian category only (Table PCT-5), reporting Asian only, but one-or-more Asian categories (Table PCT-6), and reporting Asian alone or in combination with other races (Table PCT-7), is reported in Table A.4 for the Bay Area. From this table we can show the 74.5 thousand Japanese represents persons who self-reported Japanese race, only; the 80.9 thousand persons who reported Japanese only, or Japanese plus another Asian category; and the 103.6 thousand persons who reported Japanese only, or Japanese in combination with any other Asian or other race category. The 103,650 Japanese can be thought of as a "tally" of Bay Area persons who ticked the Japanese race category on their Census 2000 form.

Given the various means to represent detailed racial categories in Census 2000, it is impossible to precisely show changes (1990 to 2000) in population by race. There are "bridging methods" to "re-allocate" the Census 2000 data to 1990 categories, but these are only approximation methods that have their own biases and inaccuracies.

B. Population by Age and Sex

(Tables analyzed in this section include Appendix Tables A.2, A.6 and A.7).

Census 2000 Summary File #1 provides detailed data on persons by age and sex. The data shown in Table A.2, total population by age and sex, is available down to the census block level. Included in Table A.2 is an "age-sex pyramid" chart for the Bay Area, a horizontal bar chart that represents the number of persons by age and by sex: the left part of the pyramid showing males by age; the right part of the pyramid showing females by age. This is very useful in showing the "baby boomer" generation: those persons in the 35 to 39 and 40 to 44 age categories, as well as the much higher proportion of females in the older age categories.

Table A.6 is a three-page table and shows the single year distribution of population by sex. (This data is based on SF-1 table PCT-12, and is available only down to the census tract level.) This table also shows the number of centenarians (persons age 100+) in the Bay Area: 1,163 persons age 100 to 104; 89 persons age 105 to 109; and 24 persons age 110 and over. There are 1,276 centenarians residing in the Bay Area on Census Day 2000.

This Table A.6 is also interesting in showing the ratio of males to females by each individual age cohort. Males outnumber females in the Bay Area up to the age of 45. Beyond age 45 females outnumber males in an ever-decreasing ratio between males-to-females. The largest male-to-female ratio is for age 20 (1.12:1). The smallest male-to-female ratio is for ages 97 to 99 (0.27:1).

The age-sex distribution of persons residing in households is shown in Table A.7. This table also includes an age-sex pyramid for the Bay Area's household population.

C. Population in Households

(Tables analyzed in this section include Appendix Tables A.3 and A.8).

New data released in Summary File #1 include detailed household types and relationship statistics. Data shown in Table A.3 include a re-play of households, population in households, total population, group quarters population and average household size. This table also includes a summary of table P-18 which typifies households by household type and presence of own children. Of the 2,466,000 households in the Bay Area, 25.9 percent are one-person households, 64.7 percent are family households, and 9.5 percent are non-family households. Of Bay Area households, 49.3 percent are married-couple families, 25.6 percent are married-couple families with no own children under 18 years, and 23.7 percent are married-couple families with own children under 18 years.

Of the 2,466,000 households in the Bay Area, 6.0 percent are unmarried-partner households (Table A.8, SF-1 Table PCT-14.) Most of these 148 thousand households are opposite-sex

unmarried-partner households (120,081 of 147,988); and the remainder are same-sex unmarried-partner households (27,907 of 147,988).

The other table in Table A.8 (PCT-15) shows the distribution of non-relatives in households by different categories.

D. Group Quarters Population

(Tables analyzed in this section include Appendix Tables A.9 and A.10).

Summary File #1 provides detailed characteristics of the group quarters population down to the census tract level. Table A.9 (SF-1 table PCT-16) shows the group quarters population by many different group quarters categories. Table A.10 (SF-1 table PCT-17) shows the group quarters population by age by sex by a more limited set of group quarters categories.

The largest category of group quarters population in the Bay Area is for college dormitories. The following table shows college dormitory populations for all Bay Area census tracts with 100+ college dormitory residents. The largest college dorm populations are associated with Stanford University (6,180 dorm residents), UC Berkeley (4,385 dorm residents in several tracts), and San Jose State University (2,235 dorm residents in several tracts).

Census Tract	Total Population	College Dormitory Population	Closest College/University
Census Tract 5116.04 (part)	6,509	6,180	Stanford University
Census Tract 4228	5,475	2,552	UC Berkeley
Census Tract 5009.02	3,696	1,691	San Jose State University
Census Tract 157	6,875	1,534	University of San Francisco
Census Tract 3521.01 (part)	3,647	1,452	St. Mary's University, Moraga
Census Tract 332.01	3,075	1,382	San Francisco State University
Census Tract 5052.03 (part)	1,853	1,008	Santa Clara University
Census Tract 1513.10 (part)	4,784	919	California State University, Sonoma
Census Tract 2017 (part)	3,148	887	Pacific Union College, Angwin
Census Tract 5056	3,690	880	Santa Clara University
Census Tract 4225	3,733	769	UC Berkeley
Census Tract 4226	688	632	UC Berkeley
Census Tract 124	8,188	503	San Francisco Civic Center (?)
Census Tract 4227	3,788	432	UC Berkeley
Census Tract 4078	2,453	415	Mills College, Oakland
Census Tract 4351.02 (part)	5,031	378	California State University, Hayward
Census Tract 6087	6,606	299	College of Notre Dame, Belmont
Census Tract 1513.10 (part)	301	295	California State University, Sonoma
Census Tract 4365	4,797	258	California State University, Hayward
Census Tract 6114	4,466	254	Menlo College, Menlo Park

Census Tract 1101 (part)	5,021	239	Dominican College, San Rafael
Census Tract 5013	4,165	239	San Jose State University
Census Tract 1250 (part)	3,918	237	Golden Gate Baptist Theological Seminary, Strawberry
Census Tract 5031.12	3,530	195	San Jose State University
Census Tract 5050.07 (part)	4,228	143	Santa Clara University (?)
Census Tract 131	6,467	128	Pacific Heights, SF (?)
Census Tract 1170	4,655	125	San Francisco Theological Seminary, San Anselmo
Census Tract 5016	7,435	110	San Jose State University

The military group quarter population in the Bay Area is now just 2,931 persons, region-wide. The military population is concentrated in four census tracts, as shown in the following table:

Census Tract	Total Population	Military Group Quarters Pop.	Associated Military Facility
Census Tract 2528 (part)	9,966	2,015	Travis Air Force Base, Fairfield
Census Tract 1511	5,130	314	U.S. Coast Guard Training Center, Two Rock (Sonoma)
Census Tract 5047 (part)	599	281	Moffett Federal Airfield
Census Tract 4275	545	198	Alameda Naval Air Station

State and federal prisons account for 16,749 out of the 142,788 Bay Area group quarters population. They are all concentrated in five Bay Area census tracts, as shown in the following table:

Census Tract	Total Population	Federal and State Prison Population	Associated Federal/State Facility
Census Tract 4501	7,600	1,613	Federal Correctional Institute, Dublin
Census Tract 125	7,727	36	Federal Building, San Francisco
Census Tract 1220	6,362	6,212	San Quentin State Prison
Census Tract 2531.08 (part)	9,138	5,498	California State Prison, Solano
Census Tract 2530	3,390	3,390	California State Prison, Solano

Local jails and other confinement facilities account for 15,870 out of the 142,788 Bay Area group quarters population. The following table shows the local jail population for census tracts with 100+ group quarter persons:

Census Tract	Total Population	Local Jail Population	Associated Local Jail
Census Tract 4501	7,600	3,646	Alameda County Jail, Pleasanton (Santa Rita)
Census Tract 5045.04	5,478	3,092	Elwood Rehabilitation Center, Milpitas
Census Tract 180	2,285	1,232	Hall of Justice, San Francisco
Census Tract 5002	5,068	1,106	Santa Clara County Jail, San Jose
Census Tract 6102.02	2,224	978	San Mateo County Jail, Redwood City
Census Tract 6135.01 (part)	4,909	778	San Francisco Jail, San Bruno
Census Tract 3650.01 (part)	5,516	715	West County Detention Facility, Point Pinole
Census Tract 3160	1,651	714	Contra Costa County Detention Center, Martinez
Census Tract 4031	1,647	682	Oakland City Jail
Census Tract 2525.02 (part)	2,242	615	Solano Hall of Justice, Fairfield
Census Tract 1521	3,189	613	Main Adult Detention Facility, Santa Rosa
Census Tract 1527.02 (part)	1,084	470	North County Detention Center, Santa Rosa
Census Tract 1060.02 (part)	1,447	293	Marin County Jail, San Rafael
Census Tract 2002.02	3,007	199	Napa County Jail, Napa
Census Tract 3551.04 (part)	1,335	197	County Farm Rehabilitation Center, Marsh Creek Road

The last specific group quarters type examined here are the 6,131 persons residing in "hospitals/wards, hospices and schools for the handicapped." Data is shown for census tracts with 100+ hospital population:

Census Tract	Total Population	Hospital GQ population	Associated Hospital
Census Tract 2009 (part)	1,070	1,024	Napa State Hospital, Napa
Census Tract 2013	2,916	795	Veterans Home of California, Yountville
Census Tract 2012 (part)	1,550	358	Veterans Home of California, Yountville
Census Tract 6124 (part)	1,017	313	Veterans Administration Medical Center, Menlo Oaks
Census Tract 4305	6,014	310	Fairmont Hospital, Castro Valley
Census Tract 165	5,121	271	St. Marys Hospital, San Francisco
Census Tract 2519.01	5,784	152	Sutter-Solano Medical Center, Vallejo
Census Tract 228.02	1,762	141	San Francisco General Hospital
Census Tract 6098 (part)	3,659	136	Sequoia Hospital, Redwood City
Census Tract 4286	3,387	132	Alameda Hospital, Alameda (?)
Census Tract 4057	3,757	121	Highland Hospital, Oakland
Census Tract 6136 (part)	2,950	111	Seton Medical Center Coastside, Moss Beach

Data on group quarter population by age and sex is provided in Table A.10. Of the 142,788 group quarters population in the Bay Area, 7,731 are under 18 years of age, 97,366 are between 18 and 64 years of age, and 37,691 are age 65 years and over.

Of the group quarter youth population, most (5,029 of 7,731) are in "other non-institutional group quarters" which includes: group homes (e.g., halfway houses, group homes for the mentally retarded), religious group quarters, non-college dormitories, crews of maritime vessels, other non-household living situations (e.g., YMCAs, YWCAs, youth hostels), and other non-institutional group quarters (e.g., emergency and transitional shelters, shelters for children who are runaways, neglected or without conventional housing, shelters for abused women, soup kitchens, and targeted, non-sheltered outdoor locations.)

Of the group quarter middle-age population, the plurality (32,901 of 97,366) are in correctional institutions, followed by "other non-institutional group quarters (30,773 of 97,366), and by college dormitories (24,957 of 97,366).

Of the group quarter senior population, the majority (22,612 of 37,691) are in nursing homes, followed by "other non-institutional group quarters" (12,018 of 37,691).

(For more information on the definitions and concepts related to group quarter population, refer to the Census Bureau's Summary File #1 documentation, Appendix "B": Definitions of Subject Characteristics.)

E. Households

(Tables analyzed in this section include Appendix Tables A.11, A.12 and A.13).

New data available in Summary File #1 include characteristics of housing units and households such as characteristics of vacant units, race/ethnicity of the householder, tenure status by persons in household, tenure status by race/ethnicity of the householder, and tenure status by the age of the householder. All of the housing unit and household data included in Appendix Tables A.11, A.12 and A.13 are available down to the census block level.

Census 2000 indicates 2,552,402 housing units in the Bay Area of which 86,383 (3.4 percent) are vacant housing units. Of these 86 thousand vacant units, 29.3 percent are for rent; 24.6 percent are for seasonal, recreational, or occasional use; 23.8 percent are "other vacant" (e.g., held by caretaker or janitor or kept vacant for personal reasons); 11.0 percent are rented or sold units, but not yet occupied; 11.0 percent are for sale only; and 0.5 percent are for migrant workers.

Of the 2,466,000 households (occupied housing units) in the Bay Area, 12.7 percent have an Hispanic/Latino householder; 60.5 percent have a non-Hispanic white householder; 15.8 percent have a non-Hispanic Asian householder; and 7.5 percent have a non-Hispanic Black/African American householder.

Note that the "householder" is the "Person 1" on the census form. The instructions on the census form are to "start with the person, or one of the people living here who owns, is buying, or rents this house, apartment, or mobile home. If there is no such person, start with any adult living or staying here."

Average household size by tenure of household is shown in Table A.12. The average household size for Bay Area owner-occupied households (2.83) is 13 percent higher than the average household size for Bay Area renter-occupied households (2.51). The average household size for all households in the Bay Area is 2.69 persons per household.

The number of households by household size is shown in Table A.12 (SF-1 Table H-13) for total households, and for owner and renter households in Table A.13 (SF-1 Table H-15). The largest category of households is two-person households, comprising 31.4 percent of all Bay Area households. The largest category of owner-occupied households is two-person households (477 thousand) followed by 1-person owner-occupied households (281 thousand households). The largest category of renter-occupied households is one-persons households (356 thousand) followed by two-person renter households (296 thousand households).

The number of households by tenure and race of householder is shown in Table A.12 (SF-1 Table H-14). Overall, 57.7 percent of Bay Area households are owner-occupied. This compares to 62.2 percent owner-occupied for white households (including Hispanic/Latino white), 57.5 percent owner-occupied for Asian households, and 39.6 percent owner-occupied for Black / African American households.

Of the 314,108 Hispanic/Latino households in the Bay Area, 44.3 percent of these reside in owner-occupied dwelling units. This compares to 63.6 percent of the 1,492,624 non-Hispanic white households. (Based on SF-1 Tables H15H and H15I, not published here but analyzed using American Factfinder.)

The number of households by tenure by the age of householder is shown in Table A.13 (SF-1 Table H16). The share of owner-occupied households of total households ranges from a low of 10.6 percent of households with a householder age 15 to 24, to a high of 75.9 percent for households with a householder age 65 to 74 years. Home ownership then drops off as the head of household increases with age, such that 64.5 percent of households with householder age 85 years and over are owner-occupied. The largest group of households are owner-occupied households with a householder age 45 to 54 (360 thousand), followed by owner-occupied households with a householder age 35 to 44 (338 thousand), followed by renter-occupied households with a householder age 25 to 34 (320 thousand).

III. DATA AVAILABILITY AND CONTACT INFORMATION

This data summary was written in Microsoft WORD, version 2000. The data tables are in Microsoft EXCEL workbooks, also version 2000. These WORD and EXCEL files are available for downloading from MTC's Internet site. Point your Web browser to:

ftp://ftp.abag.ca.gov/pub/mtc/census2000/datasummary/

The general Census 2000 Internet site maintained by MTC and the Association of Bay Area Governments (ABAG) is available at:

http://www.bayareacensus.ca.gov/

These sites will be updated to include various maps, databases, profile summary reports and other items of interest to the census data user.

The data user also may want to investigate the Census Bureau's American FactFinder to find other detailed Census 2000 results. Users should point their Web browsers to the following Web site:

http://factfinder.census.gov/

For more information on this data summary or other Census 2000 issues or to request an older version of this WORD document or EXCEL workbooks, please contact the report author, Chuck Purvis, at 510-464-7731, or e-mail: cpurvis@mtc.ca.gov.
